# INTRODUCTION

## METICULOUSLY DESIGNED AND ENGINEERED

New Range Rover Sport accessories are engineered by the same team who designed your vehicle. They are the experts who understand every inch of your New Range Rover Sport and its capabilities.

Using their expertise, they create accessories that complement the overall design of your vehicle, while optimising performance.

## TESTED TO THE HIGHEST INDUSTRY STANDARDS

All New Range Rover Sport accessories are rigorously tested and inspected to ensure they meet the exacting standards you expect from Land Rover. This ensures they always work in harmony with your vehicle.

Accessories are tested in extreme hot and cold temperatures to ensure they will perform in all conditions, all year round.

Corrosion resistance testing ensures accessories can withstand demanding climates such as coastal conditions, while a series of tests ensure seamless integration with your New Range Rover Sport.

Accessories are put through their paces in a series of bespoke tests specific to their design, function and the materials from which they are made.

For example, exterior accessory testing includes:

- Exposure to up to two years of direct sunlight known as 'Florida Weathering'.
- Heat Ageing Test for 500 hours.
- Extreme Heat Test ranging from -40°C to 80°C.
- Heat Shock Testing during which, parts are cooled to -40°C for 16 hours, then heated to 70°C for 5 minutes.
- Humidity Resistance Test where accessories are subjected to 168 hours at 48°C in 95-100% humidity.
- Accelerated Environmental Cycle Testing comprising a relentless barrage of salt, dirt and dust to simulate real world driving.

## QUALITY ASSURED

For additional peace of mind, all New Range Rover Sport accessories come with a minimum 12 month warranty. Alternatively, they can be covered under your vehicle's existing warranty if they're purchased within the first month of ownership or 1,600 kilometres/1,000 miles (whichever comes first).

## EXTERIOR STYLING

### Deployable Side Step Kit

These smart, practical deployable side steps aid entry into and exit from the vehicle, as well as assisting access to the roof. Each side step features a brushed stainless steel finish, with laser etched Range Rover branding embossed into the black moulded rubber treadplate mat, and a black edged trim finish. Neatly stowed under the sills, the side steps automatically deploy as soon as the door is opened, or when activated by the key fob. They stow automatically when the door is closed. The deployable side steps are sensitive to obstructions and will not deploy in off-road or low range settings. Automatic mode can be overridden to allow access to the roof when the doors are closed.

# INTERIOR STYLING

## SV Bespoke Antimicrobial Carpet Mats

Luxurious, tailored deep pile carpet mat set available in Ebony, with Range Rover ingot branding and a waterproof backing, provides a well-appointed finishing touch and protection to the vehicle's interior. Made from 100% recycled yarn, these carpet mats have been treated in a technical way to make them anti-bacterial and anti-fungal, this combination is known as 'antimicrobial'. They are easy to remove for cleaning.

# INTERIOR PROTECTION

## Loadspace Partition, Full Height

The loadspace partition is designed to separate the loadspace from the vehicle's cabin area. Tailored to the vehicle, the loadspace partition offers full height protection. Easy to fit and remove without the use of tools. Compliant with European testing and safety regulations (ECE17).

## Loadspace Partition Net

Convenient loadspace partition net provides a soft alternative to the loadspace partition. Helps protect passengers from stowed items in the loadspace area. The net fits to the loadspace 'D' loops and fixing points in the roof lining. The net is easily detachable when not required. Compliant with European testing and safety regulations (ECE17).

# FUNCTION AND TECHNOLOGY

## Dash Cam

The Land Rover dash cam records footage of driving events and incidents and is designed to integrate seamlessly into your vehicle's cabin and electrical system. Engineered to have low power consumption for extended use, the dash cam features full HD front and rear video cameras.

## Click and Go Base

The versatile Click and Go Base fixes between the headrest mountings and further attachments can be added to hold tablets, bags, shirts or jackets. Each attachment is sold separately. The base can be easily removed when not in use.

## Click and Play Tablet Holder with Protective Case

The removable tablet holder attachment can be fully rotated and positioned at multiple angles for in-cabin comfort and rear entertainment. It can be easily adjusted to fit different sized tablets. The branded, rubber protective case is required for tablet fitment and comes with a screen protection film to ensure that the tablet is securely held in place and resistant to any impact.

# FUNCTION AND TECHNOLOGY

## Click and Work

This folding table offers the rear passengers a practical surface from which to work, particularly useful on long journeys. It also has a cup holder and is height and angle adjustable for in-cabin comfort.

## Click and Hang

This removable coat hanger allows shirts or jackets to be kept crease-free whilst transporting. Also includes an integral hook for use outside the vehicle.

## Click and Hook

This universal hook creates extra storage space for items to be hung, especially useful for handbags or groceries.

# SAFETY

## Warning Triangle

Vital in emergencies. Stows in the loadspace compartment.

## Fire Extinguisher

Dry powder fire extinguisher, supplied with mounting bracket.

## Child Seat - Group 2/3

For children from 100cm - 150cm tall / 15kg - 36kg (approximately 3½ to 12 years). Land Rover branded. i-Size. Machine washable cover. The fabric cover is padded and the seat's shell is ventilated to ensure your child travels in comfort. Slim design of the seat allows for three Land Rover Group 2/3 child seats to be installed in the second row of a wide range of vehicles. Height adjustable headrest with markings allow you to find the right headrest height every time. Backrest can be removed so the child seat can be used as a booster seat only. Can be installed forward facing on any row (depending on vehicle) with the vehicle's three-point seat belt and/or ISOFIX anchors. Approved to EU safety standard (ECE R129).

# PET PRODUCTS

## Pet Access Ramp

Designed with optimal dimensions and angle, the pet access ramp assists pets into the loadspace area without the owner having to lift them, making it ideal for owners who regularly carry dogs or other pets in the loadspace area of their vehicle. The ramp is suitable for use for pets up to 85kg and features aluminium side panels and a plastic centre section with a high-grip tread pattern. Rubber feet help to prevent the ramp slipping and retaining straps secure it to the loadspace 'D' loops, providing a lightweight but robust, practical solution. The ramp weighs 8kg and can be folded for stowage in the stowage bag provided. Height 11cm, width 41cm, length when open 193cm and length when closed 83cm.

## Portable Rinse System

Designed to be used outside the vehicle, the portable rinse system provides a convenient solution for washing pets before loading or rinsing down other equipment from bikes to wetsuits. Depending on the setting selected, this portable rinse system will deliver a minimum of two minutes of continuous water flow through a shower hose style attachment. Without the need for batteries or external power, the system utilises pressure captured when filling from a tap, and an integrated hand pump allows the user to pressurise if filling the water tank away from home. Featuring a Land Rover branded cover and handle, with an additional stowage bag it can be secured to the loadspace 'D' loops during transit.

# PET PRODUCTS

## Foldable Pet Carrier

The foldable pet carrier provides a safe, comfortable environment for the transportation of pets, making it ideal for owners who regularly carry dogs or other pets in the loadspace area of their vehicle. Manufactured from a durable 600D nylon the foldable pet carrier has a lightweight metal frame and includes a quilted fabric cushion, net windows and a spring loaded locking mechanism which snaps into place when required. Reinforced carry handles and corner pieces provide a premium finish, with a side pocket providing a convenient stowage option for other pet accessories or small items. Height 52cm, width 52cm, length 72cm.

## Spill Resistant Water Bowl

Providing a convenient solution for use in transit or outside of the vehicle, the spill resistant water bowl incorporates a clever design feature which redirects water towards the centre of the bowl when the water is disturbed. The bowl retains an open area allowing your pet to take a drink at all times, has an anti-slip rubber base and also a retention strap for securing it to the loadspace 'D' loop. The bowl has a spill resistant capacity of 350ml.

## Pet Care and Access Pack

Taking the effort out of transporting pets, this option ensures everything required is to hand to transport pets in comfort. Combines the full height luggage partition, quilted loadspace liner, pet access ramp and portable rinse system. The perfect solution for owners who regularly carry dogs or other pets in the loadspace area of their vehicle.

## Pet Loadspace Protection Pack

Designed to provide protection and easy cleaning of the loadspace from wet and muddy paws. Combines the quilted loadspace liner, full height luggage partition and spill resistant water bowl.

## Pet Transportation Pack

Convenient option to provide a comfortable environment for transporting pets, which can be fitted or removed quickly as and when required. Combines the foldable pet carrier, spill resistant water bowl and loadspace rubber mat.

## Cross Bars

Designed and engineered specifically for Range Rover, these fixed-point cross bars attach directly to four discreet mounting points within the panoramic roof, removing the need for roof rails. Manufactured from anodised aluminium for premium appearance, they are easy to fit with the torque control tool included. Lockable for enhanced security, they include a T-track design to facilitate installation and removal of roof carrying accessories. Material tested to withstand harsh environments including corrosion resistance. City Crash tested and ISO-PAS 11154 compliant. The maximum carrying capacity of the cross bars is 100kg.

## Roof Box

Roof mounted storage box with sleek, aerodynamic design to help minimise drag and wind noise. Manufactured from premium materials for elegant appearance, with Gloss Black finish and durability in harsh environments. The dual-side opening feature allows the roof box to be opened from both sides for convenience. The power-click, quick-mount system with integrated torque indicator allows for fast and secure fitment using one hand only. The roof box is lockable for security. The central safety locking system ensures that the key can only be removed from the lock when all locking points are securely closed. The roof box is TUV approved and meets City Crash test requirements. External dimensions: 1,704mm long, 861mm wide, 448mm high. Volume 400 litres. Box weight 17.5kg. The maximum carrying capacity of the roof box is 75kg.

## Aqua Sports Carrier

Suitable for carrying a sailboard, canoe or kayak. Includes lockable multi-purpose holder to carry oars or paddles. Tilts to facilitate loading and unloading. Features lockable straps and rubber supports to maintain optimum weight distribution whilst protecting the equipment and vehicle from scratches and scuffs. When fitted, the maximum carrying capacity of the aqua sports carrier is 45kg.

## Ski and Snowboard Carrier

Designed to carry up to four pairs of skis or two snowboards, the ski and snowboard carrier incorporates extendable slider rails for easy loading and unloading. A rubber grip prevents scratching and damage to equipment. Locks the equipment to the carrier, and the carrier to the vehicle for enhanced security. When fitted, the maximum carrying capacity of the ski and snowboard carrier is 36kg.

# CARRYING

## Roof Mounted Cycle Carrier, Wheel Mounted

A roof mounted cycle carrier which mounts easily onto the cross bars, with quick-release wheel straps for convenient loading and unloading. It is a premium product, which has been tested to industry leading durability and safety standards including TUV certification (European technical inspection). Securely keeps the bike in place, with locks included for both bike to cycle carrier and cycle carrier to cross bars. Carries one bike per holder and a maximum of three carriers can be fitted. The maximum bike weight 20kg per carrier.

## Tow Bar Mounted Cycle Carrier

The tow bar mounted cycle carrier provides a compact and stable bike carrying solution for vehicles fitted with a tow bar. It is a premium product, which has been tested to industry leading durability and safety standards including TUV certification (European technical inspection). Featuring a one hand, quick attach/release tow bar coupling mechanism and it can be tilted away from the vehicle, by use of a smart foot pedal, to allow easy access into the loadspace area even with bikes mounted. Comprising of a licence plate plinth and rear lighting for enhanced safety, the carrier locks onto the tow bar and all bike positions are lockable to the carrier for security. When not in use the carrier can be easily folded flat for simple storage and will fit into most vehicles' loadspace areas. Maximum load capacity is 40kg for 2 bike carrier and 51kg for 3 bike carrier (maximum 20kg per bike).

# TOWING

## Electrically Deployable Tow Bar

The electrically deployable tow bar is operated via a switch in the loadspace or via the touchscreen. It is sensitive to obstruction encountered during deploying and stowing and will stow automatically if necessary. The electrically deployable tow bar is stowed discreetly behind the rear bumper when not in use providing a clean attractive finish. The towing 13 pin electrics are included and are also hidden until deployed. Includes nose load measuring feature up to 200kg. Approved for up to 3,500kg trailer load and nose load 195kg. Includes a unique trailer light test facility which allows the driver to check without assistance if the trailer lights, including reverse and brake lights, are functioning correctly. The trailer light test is activated via either a switch in the loadspace or via the touchscreen, depending on the vehicle's specification. The Trailer Stability Assist traction control system is an additional feature which is activated with tow bar fitment. This system automatically detects when a dangerous trailer sway situation is developing and helps to regain control by gradually reducing speed through cutting engine power and applying the brakes.
